

Topics In Translational Research Seminar Series

| Date | Location/Time | Speaker | Topic |
|-------------|---|--|--|
| 11/18/2009 | Levin Hall South 2.222 4:00PM-5:00PM | Robert Rose, MD UTMB | Finding answers to big questions: overcoming disciplinary boundaries through research networks |
| 12/16/2009 | Levin Hall North 2.220 4:00PM-5:00PM | Dianna Milewicz, MD, PhD UT-HSC-Houston | Mutations in the smooth muscle specific isoform of alpha-actin (ACTA2) predispose to a variety of vascular diseases: Evidence of a Hyperplastic Vasculomyopathy? |
| 01/20/2010 | Levin Hall South 2.222 4:00PM-5:00PM | Julian Solway, MD University of Chicago | Novel approaches to airway hyperresponsiveness |
| 02/17/2010 | Levin Hall South 2.222 4:00PM-5:00PM | Stephanie Studenski, MD University of Pittsburgh | The Pittsburgh Pepper Center: an incubator for multidisciplinary translational research in aging |
| 03/17/2010 | Levin Hall South 2.222 4:00PM-5:00PM | Harry Greenberg, MD Stanford University | Sustainable Rotavirus vaccines for the less developed world - an Indian experiment |
| 04/21/2010 | Levin Hall South 2.222 4:00PM-5:00PM | Robert Rizza, MD Mayo Clinic, Rochester | Pathogenesis of Pre-Diabetes and Diabetes: Implications for Therapy |
| 05/19/2010 | Levin Hall North 2.220 4:00PM-5:00PM | Sudhir Srivastava, PhD, MPH National Cancer Institute | TBA |
